

NOTE: Set pins attach white plastic bar to gear mount and to worm screw piece. Worm screw piece is attached to another metal piece by way of a set screw. The diameter of the piece inserted in the plastic piece may not be drawn correctly below. It was assumed that the worm screw was inserted inside of plastic piece.

NOTE: Some dimensions internal to plastic pieces were guessed at. Some of the insignificant dimensions may be off by a 1/16".

Turn Handle to Vary Position of Water
 Switch in the Blumlein
